SPORTING NEWS OF THE DAY

IT MAY BE WON SUNDAY

THREE SHIELDS ALREADY ON SAN PEDRO TROPHY.

Should One of the Same Players Win Again He Will Become the Owner of the Golf Club's Permanent Trophy.

The members of the San Pedro golf club are reminded that entries for the contest for the Mohler and DeGress trophy must be made by tomorrow at noon at the office of Mohler and De Gress.

This trophy was originally presented to the Mexico golf club, with the condition that it should be won three times by the same player before becoming his personal property.

Seven matches have been played for it, and three players have already two shields upon the cup, they are C. E. Cummings, G. B. Chase and M. McLane, and should either of them score a third win the fate of the cup will be settled. In addition to these players C. H. Bartlett has won once.

A long list of entries is expected tomorrow so that the chance of another shield being added to those already having a place on the trophy will not be surprising.

The match is at thirty-six holes, medal play rules, and will be the first that will be decided over the San Pedro links.

INTEREST IN NEW YORK.

Golfers of Gotham Look to Mexico For Sport This Month.

The New York Sun contains the following concerning the international golf tournament to be held here in February:

"Mexico is the newest field of exploration open to the golfing tourists. An international tournament, with prizes and distinct events for amateurs and professionals, is to be held at the City of Mexico, over the links of the San Pedro Golf club, from February 19 to February 26. Sunday is a great outing day in Mexico, which probably accounts for the tournament dates overlapping the ordinary play week on both ends. In the opportunities to golf under novel surroundings the tournament should be of exceptional interest and draw on this account from the amateurs who are in Florida or elsewhere in the South next month, while special rates are to be made on the different rotues from New York and Chicago to golfers goin on.

"There will be a fine list of cups and medals as prizes at the tournament, besides the title to the winner of amateur champion of Mexico. The profesional tournament will be for $800, the money value of the United States open championship, and the division of prizes will be the same as in the latter event. Those who have already entered from a formidable quartet—Will Anderson, open and Western champion; Gil Nicholls, runner-up in the open; Bernard Nicholls and Aleck Smith, the ex-Western and present champion of southern California. A number of others have the trip under consideration, and George Low, who is touring in the South on his own hook, is pretty certain to be a startar.

Aleck Smith will jump from Los Angeles after the open in southern California to the City of Mexico, and Will Smith, New Jersey open champion, who is also on the Pacific coast, may accompany him. Will Anderson and Bernard Nicholls leave this city tomorrow for Florida, where they have some important matches booked, and after the open championship at Palm Beach they will go to Mexico."

CHANGE OF DATE.

For Convenience Merida Game May Be Postponed a Few Days.

It is very likely that a change will be made in the date that the baseball team goes to Merida. The Colonia team is scheduled for a game in Veracruz on Sunday, February 12, and in case the team should leave for Merida next Wednesday they would be in Merida on the date set for the game between the Aguilas and the Colonias. As a number of the players on the Colonia team are wanted in the game at Merida, arrangements are being made so that two birds can be killed with one stone—that is to have the Colonia team, together with the players on the picked team that goes to Merida, leave here on Saturday, February 11. This will allow the regular Colonia team to play the Aguilas and then those of the Colonia team that are not on the picked team may return to the city while those that are on the team that goes to Merida will leave Veracruz for Merida direct.

In case that the new arrangement can be made with the Merida people it will make it much more satisfactory to most of the players and others concerned, and will save the postponing of the game with the Aguilas.

Y. M. C. A. DEFEAT BOSTONS.

Clash With Umpire Causes Juniors to Look Like Grown-up Players.

The Y. M. C. A. team of the Junior league walked over the Bostons in the game yesterday afternoon in the same way the Bostons walked over them in a couple of the games this season. The score was 17 to 9, favoring the Y. M. C. A. Trouble arose over a decision of the umpire and one of the Boston team was put on the bench for saying unpleasant things to the umpire. He went to the bench and stayed there until the Y. M. C. A. captain asked the umpire to put him back in the game.

The game was called at 3 p. m. by Umpire Cullen, with the Y. M. C. A. team at the bat. The Y. M. C. A. batters started to hit the ball in the first inning and they kept their lead all the way through. The first inning brought the Y. M. C. A. team five runs and the Bostons one. The Bostons were unable to score again until the fifth inning, when they made three runs, making their total four scores, while the Y. M. C. A. had run their score to fifteen. In the sixth and seventh innings the Bostons made five more scores. The Y. M. C. A. team made two additional runs during their part of the same inning. Neither team scored in the last two innings.

The final score was 17 to 9 in favor of the Y. M. C. A. team.

The Y. M. C. A. team played by far the best game that they have played this season. They had very few errors and they hit well. The Bostons were not up to their usual standard, having the largest number of errors that they have had in any game this year. Pitts of the Y. M. C. A. team made a home-run and a two-base hit. Jaggi also made a three-base hit.

In one of the innings of the game Salcido of the Boston team was running between second and third when he was hit by a batted ball. The umpire called him out. Bell of the Boston team was commissioned by Captain Fernandez to put in a kick on the decision. He did so, and in a way that caused him to be placed on the bench by the umpire. For a time it seemed that there was going to be a repetition of the action of the Mexico club of last Sunday afternoon, but finally Bell went to the bench and the game continued. As the Bostons had no player to put in Bell's place he was put back in the game in the next inning by the mutual consent of the Y. M. C. A. captain and the umpire.

The present standing of the teams in the Junior league is shown by the following:

	Won.	Lost.	P. C.
Boston	4	2	.666
Y. M. C. A.	3	2	.500
Iris	2	4	.333

MORE TIME NEEDED.

Shorter Entry List Would Make Athletic Meets More Interesting.

The athletic managers of the Y. M. C. A. have every reason to be satisfied with the result of their first athletic venture. The sports-meeting held on Wednesday night was a success, the various events filled well, and several of the competitions were interesting.

But it may be appropriately pointed out to the managers that the program was too long. Nineteen events is a long list to be disposed of in a single evening. This was proved by the fact that while there were no unnecessary delays in pulling off the different contest, that when the last match was decided the midnight hour had been passed by more than thirty minutes, and that practically the house was empty of spectators.

In future sports meetings, the Y. M. C. A. would perhaps do well to consider the advisability of limiting the list of events to ten, so that the final could be brought off before 11 o'clock.

It is also a judicious plan to make the final contest one where a close competition will be the probable result. In that case, the spectators are sent home in good humor, and with a very pleasant recollection of the contests they have witnessed.

The Fronton is not a good place for an athletic meeting, but it is the best Mexico can boast, hence both competitors and spectators must be content with it until something better is available.

Advertising Veracruz Game.

A number of the posters being used in Veracruz, announcing the game for next Sunday between the Mexicos and the Aguilas have been received in the city. They are gotten up on the order of a bullfight advertisement, with the names of the principal players on the Mexico team in large letters. Reports received from Veracruz say that the interest in the game is running high, and the probabilities for a large crowd are good.

"Pittsburg Phil" Dead.

New York, Feb. 2.—A private dispatch received here from Camden, S. C., today reports the death of George R. Smith, the turfman known as "Pittsburg Phil," who had been in poor health for a year or more. He was about 40 years old. He had been plunging on the races for nearly 20 years and was generally said to have accumulated a considerable fortune.

POWERS HAVE SPOKEN

PROFESSIONALS CAN'T PLAY IN THIS CITY.

Captain Meginn and Other Members of Board of Directors of Baseball Association Send Letter to Captain Lopez of the Mexicos.

Professionalism in the baseball league has at last been crushed. The board of directors met last night and after a thorough discussion of the existing conditions decided that the Mexico team could not play Bocanegra, Juarez or Valenzuela in any more of the league games. They also ruled that any captain who withdrew his team from a game before the game was completed would be ruled off the grounds for the season.

The following letter was sent to Captain Lopez of the Mexico team.

Mexico, Feb. 1, 1905.

G. G. Lopez,
Captain Mexico team,
City.

Dear Sir:—

At a meeting of the majority of the board of directors of the Mexico Baseball association it was decided to ask for the resignation of the following players on your team as they are either professionals, or semi-professionals, in as much as they are receiving pay for their services, viz. Bocanegra, Valenzuela and Juarez. We hereby notify you that they will not be allowed to play on the ball park in any of the series of games for the amateur championship.

Another fault that we have to find with your management is that you have threatened and did once actually take your team off the field when the decision of the umpire was disputed. If this occurs again we will put you out of the league for the season as you were one of the captains that decided that if any trouble occurred between umpire and players the game should be played out and the trouble brought before the board for final adjustment.

We are willing in any possible manner to help the players and make the game a gentlemanly one but we will not stand for anything but good ball and good conduct.

J. E. MEGINN.
GEO. BRANIFF.
O. BRANIFF.
JAMES CARNEY.

The salaried players mentioned in the above letter have been playing with the Mexico team for some time past and it was only recently that it was positively known that these men were receiving salaries. As the board announced at the first of the season the sport will be kept strictly amateur and in the future any player entering the league will have to satisfy the directors that he is an amateur.

If the Mexico team does as it decided they will withdraw from the league but it is thought that they will reconsider their former decision and will remain and play out the scheduled games of the season.

The Mexico team will hold a meeting tonight in which they will decide what action they will take in regard to the expulsion of their three players.

The members of the other teams are of course very glad that the question of whether there will be salaried men or not, has been decided. This will make the games very much more even and now the team that wins the pennant will have all the honor that the feat will reflect on them. The public interest in the games will also be increased from the fact that the baseball public of Mexico is nearly all in favor of keeping the game strictly among amateurs. The new arrangement will probably make the games less perfect from a baseball standpoint but they will be more interesting from the fact that the players are all well known young men of the city playing for the sport there is in the game.

AGUILAS WANT A MAN.

Manager Boltz Promises to Take Them a Fast Infielder.

The manager of the Aguilas has asked Manager Boltz of the Colonia team to furnish them a pitcher and an infielder for the game of Sunday against the Mexicos. Jackson had already been selected by their request to pitch the game for them and Manager Boltz advises that he will also furnish the infielder that they request. He has not yet decided who he will select but says that he will give them the fastest infielder in the league that can go.

More Interest in Practice.

The Colonia practice yesterday afternoon was indulged in by a number of the players on that team, together with several of the members of the Reforma team. The way that the players are turning out to practice insures the fact that there will be less errors in the games to come.

NURSING MOTHERS

"A richer milk than milk" is good food for nursing mothers. Scott's Emulsion is the rich cream of cod liver oil, and contains ten times as much cream as milk does.

The nursing mother must eat with the purpose of producing good, nourishing milk for her baby. A little Scott's Emulsion is often a very wise addition to her daily diet. If through nervousness or weakness her milk is a failure, Scott's Emulsion will help make it a success.

The baby gets the benefit, too, when the mother takes Scott's Emulsion. The same remedy brings new strength and nourishment to both.

We'll send you a sample free upon request.

SCOTT & BOWNE, 409 Pearl Street, New York.

SHOWMAN LAID TO REST

REMAINS OF HARRY LOCKHART BURIED AT BRITISH CEMETERY.

Funeral Under the Direction of Puritan Lodge of Masons, No. 8—Mrs. Lockhart Arrived Just One Hour Too Late.

The remains of Harry Lockhart, the elephant trainer for Orrins' circus, who died in this city last Tuesday, were laid to rest in the British cemetery yesterday morning with full Masonic services. The funeral was attended by all the attaches of the circus and many of the local Masons, as well as by several others, who were attracted to the services by the peculiarly pathetic circumstances surrounding the man's death. Mrs. Lockhart was not present, as she reached the city about an hour after the body had been lowered into the grave.

The coaches and funeral street cars conveying the mourners left the corner of San Juan de Letran and Independencia streets at 9 o'clock for the American hospital, where the remains of Mr. Lockhart had been removed. The body of the dead man lay in a beautiful casket in the mortuary chapel of the hospital, and as soon as the cortege had arrived there the members gathered about the coffin, while the burial service of the Episcopal church was read by Rev. W. Jones-Bateman, rector of Christ church. At the close of the religious services, the casket was carried on the shoulders of six men, companions of Mr. Lockhart at the circus, to the British cemetery, all the mourners following on foot.

Rev. Mr. Bateman read another service at the grave, which was followed by a Masonic service. The grave was covered with many beautiful floral offerings that were placed there by the friends and companions of the dead man.

The funeral was in charge of Puritan lodge No. 8, of the grand lodge Valle de Mexico, the grand master of which, John C. Mordough, issued orders that Mr. Lockhart be buried with full Masonic services. He was present at the funeral and personally directed the ceremonies. He was assisted by the worshipful master and other officers of the lodge.

Besides these gentlemen, Puritan lodge No. 8 was represented by many of its members, among whom were: E. T. Craig, A. E. A. Larsen, C. A. Rahm, Henry Welton, H. Cant, Richard Bell, Sr. and Richard Bell, Jr., C. B. Waite, A. Allen Jolin, Fred A. Hodgson, Ed Orrin, C. C. Lamm, A. Rovam and G. Voltaire.

Although a good many telegrams were sent out, after the death of Mr. Lockhart, to points along the road where there was any likelihood of intercepting Mrs. Lockhart, no word had been received in regard to her whereabouts, up to the time that the funeral party started on the trip to the cemetery yesterday morning. Before it had returned to the city, however, Mrs. Lockhart had arrived here, over the Mexican Central railroad, and when she reached the Inglaterra hotel where she went immediately after alighting from the train, expecting to see her sick husband, she received the first intimation of his death. The shock was so great that she collapsed and medical aid had to be summoned. During the afternoon she was induced to go to the home of Richard Bell, Sr., where she will remain for the present. Before evening, Mrs. Lockhart had recovered.

Mrs. Lockhart stated last evening that the name of her husband was Henry James Lockhart and that he was born in London, England, in 1862. Mrs. Lockhart is also a native of that city. Her home is Baraboo, Wisconsin, where they have lived for some time, and in the neighborhood of which place she owns a little farm. Beyond this property, Mr. Lockhart left very little. The children number five, three girls and two boys, their ages ranging from 21 to 4 years, the age of Mrs. Lockhart's youngest boy. She is accompanied by the other boy, named Harry, who is 11 years of age.

When it comes to talking baby talk a man is willing to acknowledge a woman's superiority.

MEXICAN BUDGET.

English translation by L. C. Simonds of the Annual Budget Statement of Finance Minister Limantour. As this document gives a complete review of the financial condition of Mexico, it is of special interest to investors in this country and to the holders of Mexican bonds.

30 BARRELS AN HOUR

THIS AMOUNT OF OIL FLOWING FROM EL CUEGAS WELL.

No. 2 Down 1,600 Feet—Melville D. Chapman Talks of Work of Mexican Oil Fields of Mexico Company in Veracruz.

Melville D. Chapman, son of the member of a New York banking and brokerage firm, has returned from a ten days' visit to the oil wells at El Cuguas in the state of Veracruz. He was accompanied by Mr. Percy N. Furber, president of the Oil Fields of Mexico company, the $10,000,000, gold, corporation, organized under the laws of the state of Delaware to exploit this Veracruz field.

Mr. Chapman stated that, owing to the almost continuous rains and the cold weather during the past two weeks, the horseback ride over the mountain trails from Zaragoza to the oil property, and from there back to Teziutlan, was trying and most unpleasant.

"This disagreeable feature, however," he said, "was more than compensated for by the scenery, first of all, and then by the interesting and instructive experience I had on the oil fields. I had heard much about the field and I must say that the development I found in existence was of a most extensive kind. Considering the difficulties under which the district labors, a remarkable amount of work has been accomplished.

"When one considers that the property is located over fifty miles from a railroad, and about the same distance from the Gulf of Mexico, with nothing but mountain trails as routes for the hauling of machinery and supplies for the development of the field, the great difficulties that opposed themselves to the establishing of the camp and developing of the wells may be appreciated, and then only to an inadequate extent, as one must see the property to realize all that has been done.

"Oil is flowing from a well, known as well No. 1, at the rate of thirty barrels a day. This well is down 1,260 feet, and when pumping machinery has been laid down it is believed that as much as 800 barrels a day may be got out of it. Well No. 2 is down about 1,600 feet, and there is every indication that oil will soon be flowing.

"Two hundred and fifty men are now working on the property and are all in excellent health, as the climatic conditions are most satisfactory.

"The wells are located in a clearing, some 400 acres in extent, in the midst of the 6,100 acres which the company owns, and the land there is at an elevation of 650 feet above sea level. The property in general is of thick forest growth.

"Present plans are to immediately construct a monorail road, twenty kilometers long, from the Tolnca river to the camp. This will facilitate the bringing in of machinery and supplies, and permit of the work being actively pushed forward.

"It is also among the designs of the management of the company to build large tanks and otherwise prepare for the commercial handling of the oil when the railroad connections shall have been made with the camp."

Y. M. C. A. Night School.

The winter term of the association night school opens Monday, January 9. A practical business course is offered to young men. Classes in commercial arithmetic, bookkeeping, shorthand, mechanical drawing, hygiene and health, English, Spanish, German and French. First class instructors; moderate rates. Send for circular. Apartado 2355.

A scientist is a man of learning; among other things he is apt to learn that he isn't flim-flam proof.

After a milkman retires with a fortune he keeps in practice by pumping up his automobile tires.

A woman's face isn't always as bad as it is painted.

ANOTHER PILGRIMAGE

BISHOP OF CHILAPA PLANS A VISIT TO ROME.

Issues a Circular Letter Asking Others of His Diocese to Accompany Him to the Eternal City—to Leave This Spring.

Mgr. Jose Homobono Anaya, bishop of the see of Chilapa, in the state of Guerrero, has decided to make a journey at an early date to Rome.

The trip will be in fulfillment of the canonical obligation that rests on all Catholic bishops to make a visit to the holy see at least once in five years, for the purpose of personality informing the sovereign pontiff of the condition of their dioceses. This is the visit ad limina, so frequently mentioned in the history, and means the visit to the portals of the apostles, "ad limina apostolorum."

As a matter of fact bishops in some quarters have found many pretexts for not fulfilling their obligations in regard to this visit, but it is apparently the policy of the present pope to insist on the observance being strictly adhered to, and to accept none but an entirely valid excuse for the absence of a bishop from the Eternal City beyond the appointed time.

Bishop Anaya has issued a circular to the clergy of his diocese calling on those of them who have the means, and other general facilities for making the trip, to accompany him. It is said that not only a number of priests, but also several wealthy laymen of Guerrero state desire to join the bishop so that it may be a veritable pilgrimage that Mgr. Homobono Anaya will lead to Rome.

He expects to start in the end of March or beginning of April.

The Lord made woman—but the dressmaker and the beauty specialist are constantly trying to invent improvements.

EXCURSION TO VERACRUZ.

To visit the French squadron and the two new Mexican gunboats. Special train will leave at 7 p. m., February 4, on the Mexican Railway.
