FRENCH "ANARCHIST BRIGADE" MAKES ANOTHER HAUL.

MAY-DAY ATTEMPT PLANNED

Reds Bringing Explosives Into Paris

Associated Press Special Cable. Paris, April 26.—The police yesterday made an important capture of Anarchists at Maisons-Alfort.

Their arrest was due to information received last month by M. Guichard, chief of the "Anarchist brigade" of the secret police.

It was discovered that they had planned to introduce into Paris a number of cartridges composed of a mining explosive known as favier powder.

During the struggle the package dropped to the ground. It contained enough explosives to have blown the Anarchists and their captors to pieces.

As the package fell, Roussel, who suffered from a heart complaint, turned deathly pale and fainted.

BETTER THAN A JUBILEE

Would Like to Join Man Who Was Put in Prison for Circulating Tolstol Literature—Wants to Get Into a Real, Vile, Reeking Jail.

Associated Press Special Cable. St. Petersburg, April 26.—Count Leo Tolstol is reported by the Russky Viedomosti to have written a characteristic letter regarding the celebrations which are being arranged for his 80th birthday.

A man named Bodjansky, who was recently sent to prison at Kharkoff on a charge of disseminating the count's works, wrote to a friend, humorously suggesting that Count Tolstol would probably like to join his admirer in prison as the best way of celebrating his birthday.

"I have long been wondering if anything could now give me pleasure. This would, besides, perhaps, content those who dislike my writings and their disseminators; this would content me in my old age and save me from the burden of the jubilee celebration which is before me."

FINLAND WORRIES RUSSIA

Solution of Problem May be the Annexation of Viborg.

Associated Press Special Cable. St. Petersburg, April 26.—The Finnish crisis continues unabated. Live-ly dissatisfaction has been caused in government circles by the vote of censure which the majority of the Finnish diet passed against the senate for displaying zeal against the Russian revolutionists.

The imperial government seems disposed to "solve the diet in the hope that new elections will give a majority to the old Finnish as opposed to the Swedish Constitutional party.

Indeed, careful consideration of the political currents in both countries will give ground for the belief that this will be the ultimate upshot of the unsatisfactory relations between the two countries which began after the imperial manifesto two and a half years ago.

IS REPAIRING LA GRANJA

Palace Is Being Modernized and Is to Be One of the Prettiest Resorts for Royalty in Europe—To Visit England During Summer.

Associated Press Special Cable. Madrid, April 26.—King Alfonso was strongly desirous of attending the Cowes regatta this year, and had already made preparations for doing so, but it is reported that other uncancelable engagements will prevent his majesty from fulfilling his desire.

A trial of the sloop has already been made at Ferrol, with excellent results, and they will be shipped to San Sebastian as soon as possible.

The crown prince, owing to the roundness of his cheeks, his robust appearance and his wonderful health, has been nicknamed the "pretty little English boy."

King Alfonso has ordered large works of reconstruction to be carried out at La Granja palace and all the private rooms have been re-decorated in the English style by British and Spanish craftsmen.

Under the personal direction of King Alfonso, who loves drawing plans and details, an electric plant, worked by water power, has been installed at La Granja.
