More Light. that the representatives of drawers is reported to the las, who are acting also for Honduras delds. are informed by the authorities of the latter country that Great Britain is preparing to take aggressive measure for the collection of the interest on England upon which the republic defaulted nearly 20 years ago. The interest and principal in arrears is said to amount to between £20,000 to £30,-000 per annum. The praposition is to collect the revenues of the Hondurian ports until some portion of the overdue interest at least is paid.
